

Nova Associates

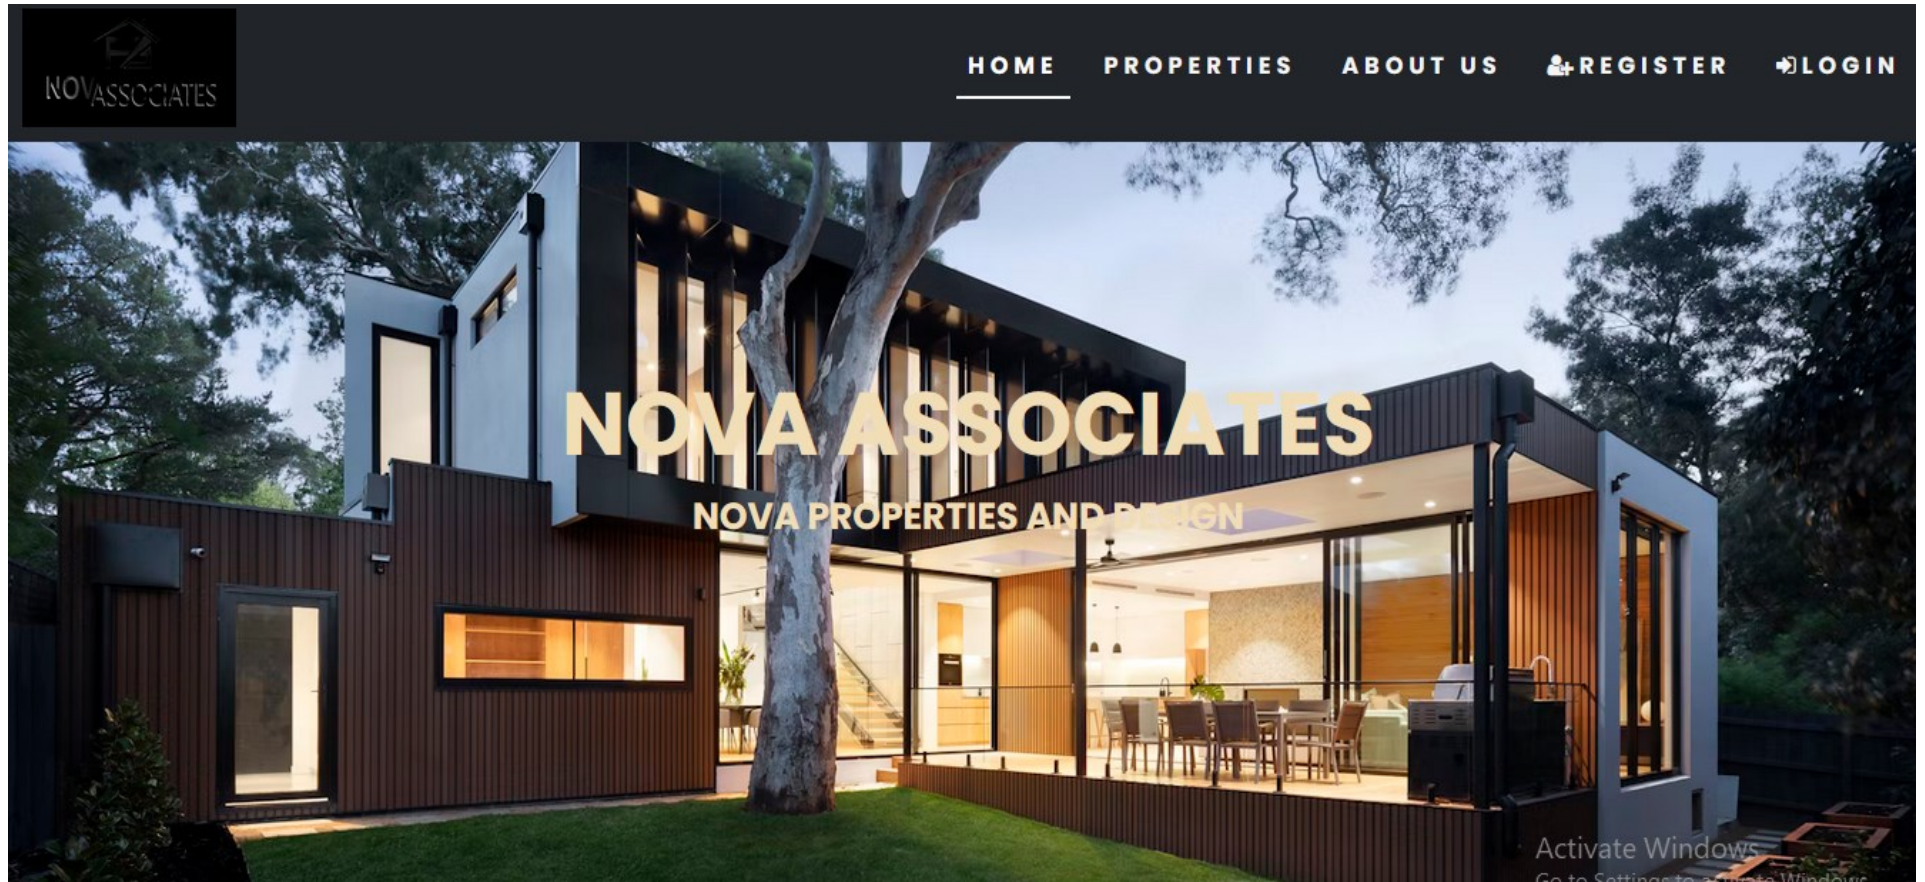

Nova Associate is a web application designed to sell house plans to customers who want to build houses but fail to have a nice plan for their houses. This web application is when it gets in, because, on this Nova Associates web app, you can look for your dream house plan. If you cannot find your dream house plan, then you can email us so you can describe your plan to us, and we will do it for you. Nova Associate can manage the online payment and can do more.

The team who developed Nova Associate and handled the functions:

- ❖ **Philani Syabonga Vundla:** Front-End Developer
- ❖ **Mncedisi Mthembu:** Back-End Developer

I was doing backend development, handling all functionalities, including the MySQL (Database) of Nova Associate web app. I believe that we did a great job on this web app. A lot of people loved it. When we were presenting it to them include FEED.
